

**FIRE KILLED FIVE
AT TOLEDO, OHIO****ROUND HOUSE ROOF FELL,
BURYING MANY MEN.**

Beside Those Who Were Killed, Nine Others Were More or Less Injured—A. N. Kellogg Newspaper Company's Plant at Cleveland, Gutted—Big St. Louis Blaze.

Toledo, Ohio, March 18.—The roof of the Wabash railway roundhouse fell in yesterday morning at 10 o'clock during a fire, killing three men and injuring many more. The dead:

BONER, JOHN A., a spectator, aged 19. He was taken out a mass of bruises and cuts.

LEARY, JOHN, machinist, married; his injuries were so terrible he died in a short time.

PRESTON, JOHN J., car inspector; he was crushed into an almost shapeless mass. Preston was a married man with a family of five children.

Fatally injured:

HOWARD P., master carbuilder, married, cut about the head and shoulders; cannot recover.

MCDONOUGH P., stationary fireman car department, married; crushed and cannot live.

The injured:

Bohman, R. H., painter, married; badly cut about the head.

Becker, L., painter, married; cut about the head and neck.

Becker, Charles, married; cut about the head and neck.

Finlay, Jack, engineer, married; lives at Andrews, Ind.; badly crushed about the chest.

Greenburg, Martin, car repairer, married; body badly crushed.

Gerding, Henry, car repairer, married; slight injuries about head and shoulders.

Lauer, Thomas, foreman truck department, married; bad cut in back of head.

Towers, George, machinist; cut about head and face.

Zimmerman, H. F., painter, married; cut about head and legs.

Shortly before 10 o'clock people in the vicinity noticed a small blaze in the cupola of the building, evidently kindled from a spark from some passing locomotive. An alarm was sent in and soon the department responded with three engines and hose carts.

The roundhouse whistles were at once sounded and as many of the employees of the company reside on the vicinity were soon on the spot. There was apparently no immediate danger, as the fire was still confined to the top of the structure. They rushed inside and endeavored to get the engines out to prevent their destruction. As nearly all of them had no water in the boilers considerable delay was occasioned in getting them in shape to move. Suddenly the roof was observed to be sagging. A cry of alarm went up, but the roar of the flames evidently prevented the men on the inside from hearing it, and as the cross bars of iron supporting the roof gave way the building collapsed and fell a mass of ruins. It was known that several people were in the building when it fell and the collapse aided materially in extinguishing the flames. A search of the ruins was made as soon as possible, revealing the extent of the tragedy.

The loss of six engines destroyed is estimated at \$40,000; building, \$50,000; store room and miscellaneous stock, \$10,000. Total, \$100,000.

The inquest over the body of the dead will be held this afternoon. It is understood an investigation will be made as to the condition of the building, which has been used about forty years. It was one of the railway landmarks.

CLEVELAND NEWSPAPER BURNED.**Loss to the "World" and Other Occupants of the Building \$161,000.**

Cleveland, Ohio, March 18.—The Worthington block, at Ontario and Noble streets, occupied by the World newspaper plant and the A. N. Kellogg Newspaper company, was destroyed by fire soon after 6 o'clock last evening. The loss on the building is estimated at \$40,000, with \$10,000 insurance. The loss of the Cleveland World is placed at \$60,000, with \$40,000 insurance. The Kellogg Newspaper company's loss is \$41,000 and the insurance \$21,000. The Claffen Manufacturing company and Bandeau Bros. lose about \$10,000 each, which is insured. The cause of the fire is a mystery. It started in the rear on the first floor and spread with great rapidity. An explosion, probably caused by gasoline, occurred soon after the fire started.

STORAGE WAREHOUSE BURNED.**Causes a Loss of \$200,000 to Hugh Rogers & Company.**

St. Louis, Mo., March 18.—The storage warehouse and elevator of Hugh Rogers & Co., dealers in salt and grain, at the Levee and Bremen avenue, was burned yesterday causing a loss of \$200,000 on the building and contents; fully insured. The building was two stories in height, about 150 feet long and forty feet wide, and contained salt and grain valued at \$180,000. The contents that escaped the fire were swept away and destroyed by the flood of water to save the adjoining property, consisting of lumber yards, small storage warehouses, and railroad property, as it was seen the elevator was doomed.

Mail Matter Destroyed.

Marion, Ind., March 18.—The omnibus barns of Holman & Reeves and the livery stable of Middleton & Simoon were destroyed by fire yesterday, involving a loss of \$5,000, partly insured. Five horses were burned. Four sacks of second-class mail which had been taken by a bus from the early morning trains were destroyed.

Taylor Not Yet in Sight.

Tampa, Fla., March 18.—Taylor, abductor of South Dakota treasurer, who was reported to have been here last night, has not yet been seen.

LIVED ON BLOOD.**Survivors of the British Ship Yeoman Tell Their Story.**

Portland, Ore., March 18.—The following dispatch comes from Marshfield, Ore.: "Daniel Clark and Thomas Moore, supposed to be the only survivors of a crew of thirty-one passengers from the British ship Yeoman, arrived here last night on the schooner Leeds. The Yeoman sank Feb. 23 in latitude 34 N., longitude 45 W. She was bound from Antwerp to Redondo. Clark related the details as follows: 'While shortening sail a sudden squall struck us and a heavy, swell-like tidal wave capsized the ship. As the seas swept the deck I was carried overboard. A full followed and the ship righted. I got on the ship again to find no one on deck. The cook was lying in the galley with his head split open and hardly alive. Capt. Ferguson and the mate were drowned. As the ship was sinking I decided to abandon her, and cutting loose a lifeboat got the cook into it and pulled away. We were fourteen days in the boat before the schooner Leeds sighted us and picked us up, during which time we suffered more than language can express. We had to fare all the time on sixteen biscuits, without a drop of fresh water. We became so hungry that we ate the uppers of our shoes and each drank the other's blood.' Here Mr. Clark exhibited his leg, which showed great red blotches, certifying the truthfulness of his story. Continuing, he said: 'I have been around the horn nine times but this was the roughest trip I ever experienced. We lost four men overboard in a gale off the horn, and Paul Hensing fell from the topsail yard and was killed.'"

Guthrie, O. T., March 18.—Forty head of horses were stolen and run off three weeks ago by three thieves near Wewoka, in the Choctaw nation. A posse, headed by Deputy Taylor, started in pursuit of the robbers and surrounded them this morning. They refused to surrender and kept firing. The posse pressed them closely, and the fight was continued for three hours, one of the posse receiving a bullet in his arm, causing him to fall from his horse. Finally the entire party massed and charged the criminals, forcing them to take refuge in a cabin. There the thieves barred themselves in and defiantly proclaimed that they would not be taken alive. After repeated efforts to induce them to give up the house was set on fire. Still the men inside refused to come out, although the roof was a mass of flames. They still threatened death if any of the posse ventured near. At last the frame building fell in burying the desperadoes in the ruins, and they were roasted to death in the building. One of the thieves was identified as Charles Cate, a former pal of "Bill" Doolin.**HEIRS TO \$5,000,000.****Two Hundred Metzingers of America to Get \$255,000 Each.**

Mount Carmel, Pa., March 16.—Several days ago L. J. Metzinger of Locust Gap noticed an advertisement published by the Dutch consul at Philadelphia, calling for heirs to a fortune belonging to people of that name, now in the hands of the government of Holland. Mr. Metzinger visited the consul and established satisfactory proof of his claim. The fortune is said to amount to \$51,000,000, and it is said that by next May the wealth will be distributed among the members of the Metzinger family in this section. There are three heads of the family—Joseph Metzinger of this place, and Nicholas and Peter Metzinger of Locust Gap. In all the family numbers 200 persons and, when all the wealth is distributed each will be the recipient of \$255,000. The fortune was founded 150 years ago by one of the original stems of the Metzinger family established in France, who afterward emigrated to Holland.

"GOV." DYE'S WILL IS VALID.

Southern Man Left \$100,000 to His Colored Housekeeper.

Atlanta, Ga., March 17.—The effort to break the will of the late George Washington Dye of Elbert county failed in the lower court. Dye left an estate worth \$100,000 to his negro housekeeper and her six children whose father he was. His relatives attempted to break the will, but the jury have rendered a verdict sustaining it. This is in accordance with the decisions of the state Supreme court. After Dye died, \$40,000 in cash was found packed in an old trunk. He owned 7,000 acres of land in one body, and was known in this county as "Gov." Dye.

Boilers Wrecked by Explosion.

Worcester, Mass., March 18.—Low water in one of fourteen boilers at the extensive boiler plant of H. N. Slater's South Village woolen mills in Webster at noon yesterday caused a terrific explosion. The plant and five boilers were ruined and other damage about the works was done. Several people narrowly escaped death. The fire department saved the plant from total destruction by fire. Over 600 people are out of employment. Loss, \$25,000.

Spaniards Win a Battle in Manila.

Madrid, March 18.—Advices from Manila are that the Spanish forces under Gen. Sarrado have defeated the Malay Mussulmans at Mandano. The enemy lost 108 killed, including the sultan of Mandano and his son. The Spanish loss was two officers and fifteen men killed, and twenty-one officers and 172 men wounded.

County Infirmary Goes Up.

Millersburg, Ohio, March 18.—The Holmes county infirmary near this place burned yesterday, causing a loss of \$25,000, upon which there was an insurance of \$15,000. The forty-six inmates of the institution were rescued with great difficulty, but all were taken out safely.

Will Not Affect the New York Law.

New York, March 18.—The decision of the Illinois Supreme court upon the unconstitutionality of the sections of the eight-hour law is a matter of considerable interest to the factory inspectors here, although they say it will be in no way likely to affect the laws or legislation in this state.

Did a Spanish Boat Fire on Our Flag?**THE WASHINGTON AUTHORITY DISCREDIT THE STORY.**

At the White House and the Treasury Department the Reports From Key West Are Not Believed—The Arced Said To Have Sunk an American Schooner with All on Board.

Washington, March 18.—The report that a Spanish warship had fired on and sunk an American schooner is discredited at the Whitehouse and the Treasury. The report was brought by passengers on the steamer which arrived at Key West from Savannah Saturday night. They told of reports in circulation there of further depredations by Spanish cruisers on American vessels along the Cuban coast. The latest report is to the effect that a Spanish gunboat, Arced, fired on and sunk an American schooner off Puerto Padre. It is reported that the crew of the vessel, numbering sixteen persons, perished with it. It is not known whether the schooner had arms or carried an expedition for the Cubans. It was reported in Havana that the schooner had sailed from Key West. Inquiries, however, fail to show that any boat is missing or unreported, except those engaged in legitimate trade. Many sailed recently for West India ports with full cargoes.

The chief topic among the passengers by the steamer from Havana was the unsatisfactory outcome of the interview had by the commissioners sent by the government to treat with the rebel leaders in arms in the eastern provinces. What inducements were offered by the commission for the cessation of hostilities or what guarantees were promised are not known, but all propositions are rejected by the insurgents. They said they held the situation and were in a position to dictate their own terms. The entire press, editorially, deprecates the result of the conference and asserts that it has done more harm than good.

SPANISH MINISTRY OUT.**Attempt to Curtail the Liberties of the Press Cause.**

Madrid, March 18.—The Spanish ministry has resigned in consequence of the trouble in the chamber of deputies Saturday, when all the reporters withdrew from the house as a protest against the defense made by the minister of war of the officers who attacked and wrecked the offices of El Globo, the organ of Senor Castelar. It is probable that Field Marshal Martinez Campos will form a new cabinet. Senor Sagasta has declared it is his intention not to resume the premiership.

An explanation of the crisis is that according to the military code those who slander the army through the press ought to be tried by court martial, when, according to the press laws, such matters ought to be submitted to a jury. The Supreme court decided in favor of civil procedure. Despite this, the minister of war, conforming to the desires expressed by the officers of the garrison, proposed to the cabinet that a court martial be summoned to try the cases. A majority of the ministers representing the civil elements opposed this procedure, whereupon Prime Minister Sagasta declared it was impossible for him to continue longer in office. All the ministers then tendered their resignations.

DESPERATE CONDITIONS IN CUBA.**Traveler from the Island Tells What He Knows of the Situation.**

Key West, Fla., March 18.—A trustworthy report of the condition of affairs in the east end of Cuba is brought by a passenger on the steamer Macotte, who says: "The fighting started in a desultory and scattered fashion, but the forces gradually became crystallized and there are now fully 6,000 insurgents under arms. They are in a dozen or more detachments, but are giving the government no end of trouble. In many cases the Spanish troops have been beaten back with heavy loss. The most deplorable feature of the warfare is the pillaging and burning. The insurgents have gained confidence since the beginning of the trouble, and matters in the eastern district are in almost as bad condition as during the war of 1895." The passenger also said the revolt would kill business in Cuba for two years. Money already is scarce and prices are high. A panic is feared. It seems to be the general impression among the Spaniards that the United States feels bitter toward the Spanish government and would like nothing better than an excuse to seize the island; hence their hatred of the Americans."

Nothing official has been received of the report of the Spanish cruiser firing on the Alliance. It is understood the Spanish officials in Havana say the Alliance was within three miles of shore and that the cruiser had a right to sink it on its refusal to halt.**TAYLOR EXPECTS DISAVOWAL.****He Thinks the Spaniards Guilty Only of Procrastination.**

Washington, March 18.—Minister Taylor cabled the state department Saturday from Madrid that Spain, while showing a spirit of procrastination in the Alliance outrage, undoubtedly would disavow the action taken by the captain of the Spanish cruiser. It is evident the Spanish minister by his criticism of the secretary of state recently has not endeared himself to the administration, and, if he should develop any more eccentricities, he might be surprised with the gift of his passport.

March 18.—A dispatch from the Standard says the governor is only able to count on the support of the police, the civil guard has declined to act against the young officers who took part in the riot at the bathhouse with rioters.**THE JAPANESE ARMY TO MARCH ON PEKIN****PRINCE KOMATSU IS ORDERED TO THE FRONT.**

He Will Take Charge of the Troops, and, It Is Said, Lay Siege to the Chinese City—Queen Lil's Sentence Was Commuted—Other Foreign News.

Yokohama, March 18.—It is officially announced that Prince Komatsu has been ordered to the front as commander-in-chief of the expedition party which it is intended shall march on Pekin.

Paris, March 18.—A Shanghai dispatch states the Japanese army at New Chwang captured all the supplies of provisions, etc., which were intended to last the Chinese three months. They also hold all other ports from which supplies could arrive. Thus the Chinese troops in Manchuria will be compelled either to yield or to speedily retire in the direction of Pekin. It is reported in Shanghai that the British Mediterranean squadron is going to the east.

London, March 18.—A dispatch from St. Petersburg says it is reported that all the Russian Mediterranean squadron has been ordered to the Pacific to be in readiness to make a positive demonstration in concert with Great Britain in regard to the Japanese demands on China.

QUEEN'S SENTENCE REMITTED.

Ex-Congressman Dixon, Just Back from Honolulu, Says So.

Butte, Mont., March 18.—Ex-Congressman W. W. Dixon, who, it is understood, was sent to Honolulu by Chairman McCreary of the foreign relations committee to make an investigation of recent events on the islands, returned to Butte yesterday. Judge Dixon found that the recent attempted revolution has strengthened the provisional government greatly, and that the government is very conservative in the treatment of the revolutionists and not at all vindictive toward the supporters of the queen. Martial law will be removed within a month or six weeks and the queen's sentence remitted. The legislature will be convened in the spring and a general election called for the election of a president. Judge Dixon thinks annexation is inevitable and says the only people opposed to it are the English residents of the islands.

Tokio, Japan, March 18.—The Japanese government already knows that credentials have been given by the Chinese government to Li Hung Chang, who is on his way to Japan to negotiate a treaty of peace. These credentials are correct in form.

Berlin, March 18.—Reliable information from Pekin is to the effect that Li Hung Chang is authorized by his government to pay and furnish provisions to the Japanese troops at the posts already occupied by the Japanese if Japan will grant an armistice.

Frankfurt, March 18.—A quantity of fresh wreckage, supposed to be from the missing cruiser Reina Regente, has come ashore at Tarifa. All the searches for the vessel have been fruitless.

Baron Von Schorlemer-Alst Dead.

Berlin, March 18.—Baron von Schorlemer-Alst, the noted Centrist leader, whose illness from influenza was announced yesterday, is dead.

To Open the Colville Reservation.

Washington, March 18.—It is expected by the land department that the surveys on the Colville Indian reservation will have progressed sufficiently during the summer and Indian allotments made so that 1,500,000 acres will be opened to settlement. These lands are in North-eastern Washington, the ceded lands being on the northern border. Upon this tract there is said to be mineral deposits that will receive attention.

Two Die in Gasoline Explosion.

St. Paul, Minn., March 18.—Mrs. Frances Sumner, aged 38, used a mixture of gasoline and kerosene to start a fire yesterday morning. An explosion followed. Mrs. Sumner's clothing took fire. Her niece, Miss Nellie Clausen, 21, attempted to save her aunt and her own clothes took fire. Both women were so badly burned they died in a hospital in the afternoon.

Cowboys Killed by Cattle Thieves.

Wichita, Kan., March 18.—Information was brought here by railroad men from Woodward, Okla., to the effect that in a fight between cowboys and cattle thieves last night "Chip" Baxter and Ed Burwell were killed by the outlaws and James Byron, a cattle man, was badly wounded.

President's Hunting Trip Is Ended.

Washington, March 18.—The President and party reached the city Saturday afternoon. The trip consumed ten days, but only a little over two days were actually spent in hunting birds. The trip of Mr. Cleveland appeared to give him a very substantial improvement.

Lyons Is Found Guilty.

Colorado Springs, Colo., March 18.—The jury in the Lyons case has brought in a verdict. Lyons was found guilty on the first count of assault with intent to murder Sam McDonald, Charles M. Robinson and J. M. Goodhue.

Goodman Set Free.

Cincinnati, Ohio, March 18.—A special jury in the trial of Conductor Goodman, charged with the murder of C. Parsons of Natural Bridge, Va., brought in a verdict of not guilty this morning.

FOR THE COMING WEEK.

Forecast of the Work Ahead of Illinois Legislature.

Springfield, Ill., March 18.—The work of the senate this week promises to be exceedingly interesting, inasmuch as the civil service bill, the pool bills, and other measures of importance probably will be before the body for advancement. Senator Humphrey's bill allowing racing and pool selling from May to November is in the hands of Chairman Aspinwall of the senate committee on enrolled and engrossed bills. An important session of the senate committee on waterways and drainage will be held Wednesday for a continuance of the discussion begun last Wednesday by this committee on the substitute offered by Senator Barnes to Senator Humphrey's bill providing for an increased tax levy of one mill for the drainage canal district.

The matter of greatest interest in the house this week promises to be the disposition of Mr. Needles' resolution providing for a constitutional convention. It will come up Wednesday morning as a special order. Mr. Crafts' bill providing a new code of judicial procedure will come up in the house judiciary committee Tuesday as a special order. The matter of the refusal of the senate to concur in the house amendments to the military appropriation bill will come up in the house during the week. It is probable the house will refuse to recede from its amendments and a conference committee will have to be appointed. The items stricken out may be restored. The senate bill to enable cities and villages to levy a 2 percent tax upon the receipts of foreign fire insurance companies doing business in such cities and villages for the benefit of the fire departments is now on the calendar on the order of first reading. It will be advanced to second reading this week, and unless it meets with some unforeseen calamity will be passed the week following.

DEATH BY A FLOOD.**Heavy Rains Followed by a Destructive Water Spout in Alabama.**

Gadsden, Ala., March 18.—News comes from several sections of the state of great losses in houses and cattle by the rains and strong wind struck Prouto and wrecked the house of W. O. Copeland. The house was torn from over the heads of the Copeland family and six members were more or less injured. Lucy Haversham, a 9-year-old girl, was blown some distance and struck a tree, breaking her arm and leg and several ribs. From Brewton and Eufaula comes the report of great damage to farms and destruction to cattle.

The worst fatality occurred on the Coosa river, thirty miles above this place. A water spout burst and the river rose out of its banks, unloosed the house of Jacob Anderson and carried him, his wife, and baby down the stream. The house was wrecked upon a rock and the three inmates drowned. A negro servant saved his life by catching the limb of a tree as the house sped down stream.

Hundreds of cattle were drowned and fifty to a hundred barns were wrecked. Three men who were logging on the Coosa have not been seen since the storm and are thought to have been lost.

HIS HOPES ARE HIGH.**Carlisle Sees No Clouds on the Financial Horizon.**

Washington, March 18.—Secretary Carlisle feels certain that July, with the receipts from the income tax, will see the expenditures equalled by the receipts. It will be observed that he is therefore confident the Supreme court will declare the income tax law constitutional, even though the bench divides on the question. Secretary Carlisle says nothing as to the treasury deficiency for the fiscal year ending June 30, 1895. At the present rate that will aggregate \$50,000,000, for it already is almost \$41,000,000. It will appear, therefore, highly improbable there will be a sufficient surplus in the coming fiscal year to wipe out that deficiency. That need not be a matter of anxiety, however, for the one hundred and eighty odd millions received from the three bond issues more than cover the deficiency to date and those in prospect up to July 1. The secretary does not seem to be of the opinion that there is any reason for anxiety about the gold reserve. He is confident that with increasing receipts and the co-operation of the bond syndicate there will be no dangerous raid on the gold reserve.

Eleven Prisoners Escape Jail.

Seattle, Wash., March 18.—A daring jail delivery, headed by the notorious Tom Blanck, twice a murderer, was perfected at the county jail here last evening, in which ten prisoners, including the three convicted of murder, made their escape. The delivery was cleverly accomplished by means of a dummy revolver in the hands of a desperate criminal. There were twenty-one prisoners in the cages, but only eleven of them joined in the escape. The delivery created intense excitement and a great throng of people gathered at police headquarters as soon as the news went abroad.

Reward of \$1,000 for Murderers.

Denver, Colo., March 18.—Saturday night Gov. McIntyre gave out a proclamation announcing a reward of \$1,000 for the arrest and conviction of those who were implicated in the killing of the Italians at Walsenberg. He declares his intention to give the matter his close personal attention and see that the law is vindicated.

Washington, March 18.—There is no likelihood of any trouble with Italy growing out of the action of Baron Fava in communicating direct with the governor of Colorado regarding the Denver lynchings.

Family Troubles End in Murder.

Denver, Colo., March 18.—George P. Kroning was shot and killed yesterday by William R. Peck. Kroning's wife obtained a divorce from him several weeks ago on account of Peck's wife. Peck refused to talk. Both men were employed by the Rio Grande railway company. Until the scandal of the divorce case they bore the best of reputations.

ST. PAUL TRAIN WON
YESTERDAY'S RACETHE NORTHWESTERN SUNDAY
PAPER FLYER BEATEN.

Engineer J. Wall Made the Run Here From Chicago—128 Miles—in Two Hours and Fifty-Three Minutes, Beating the C. & N. W. Train by Thirty-Two Minutes.

Last Sunday's race from Chicago to Janesville by "paper trains" on the Chicago & Northwestern and Chicago, Milwaukee & St. Paul roads, was repeated yesterday, but unlike last Sunday, the St. Paul was the winner of the contest. The Tribune tells the story like this:

"Shortly after midnight Sunday morning a Milwaukee engineer sent over to a Northwestern throttle-puller this message: 'I'll beat you to Janesville this morning, or blow up.' The Milwaukee engineer did both. He defeated the Northwestern and 'blew up' and down all the streets of the Wisconsin town about his accomplishment.

"Last Sunday there was a race between a newspaper train on the Chicago, Milwaukee & St. Paul and the Chicago & Elroy mail on the Chicago & Northwestern line. The point to which the trains raced was Janesville, and in the sprint the Northwestern was the winner by just fourteen minutes. It was stated in The Tribune that there would be another race on the following Sunday morning and there was.

"The preparations made by the Milwaukee to lay out its great rival in carrying Uncle Sam's mails, led the engineer to make the remark quoted above. The entire line from Chicago to Janesville was 'cleaned up,' and instructions were given to go in ahead of the Northwestern.

"The Milwaukee's line to Janesville runs straight west to Elgin, and thence to Davis Junction, where a turn is made that takes a train due north. The route over this line is 128 miles. The Northwestern's line to the same point takes in the towns of Des Plaines, Barrington, Woodstock, Harvard, Caledonia and Beloit and the distance via these points is 105 miles. The Elroy train hauls one postal car, one baggage car and two coaches. The Northwestern has the heavier train and a route twenty miles shorter than its rival.

Makes a Rapid Start.

"The Northwestern train left the Wells street station nineteen minutes late. It was hauled by engine 641, Harry Ebbetts engineer and S. H. Iretton conductor. Ebbetts turned his iron horse loose as soon as he passed Clybourn Junction, and in a distance of thirty-one miles he had wiped out all but two and one-half minutes of the delay. He raced up the heavy grade just east of Crystal Lake in fine style, stopping at that town exactly on the dot. When Harvard, distance sixty-three miles from Chicago, was reached the Elroy mail was seven minutes ahead of schedule time. At this point Phil Meachad with engine 680 and Conductor D. G. Burghardt took charge of the train and ran it on schedule time to Caledonia, Beloit and Janesville, arriving at the last named point at 7:25 a. m., covering a distance of forty-two miles (making four stops) in one hour and twenty minutes. The officials made no claims as to fast time of this train, except on occasions when there are delays to be made up. The sixty-three miles to Harvard are then covered easily in a little over one hour.

"The Milwaukee, with twenty miles further to run, left the Union station nineteen minutes ahead of the Northwestern pulling out at exactly 4 o'clock. Hauling the train was J. Wall with engine No. 721 and with Conductor L. W. Carlton in charge. With its two light cars the special ran to Elgin, thirty miles distant, in fifty-four minutes. It ran to Davis Junction, where the northward turn is made, and distant forty-four miles from Elgin, in forty-eight minutes.

Fast East to Rockford.

"Wall was now at a point where he expected to run down his adversary. He was now running to head off the Elroy at Beloit. He got over the eleven miles to Rockford in seventeen minutes, arriving there at 6:05 a. m. He then dashed up the Rock river to Beloit, covering eighteen miles in twenty-five minutes. Here Wall shed his oily cap in the air and emitted a vigorous yell. The Northwestern train was just entering Caledonia depot twelve miles off to the east. This meant the engineer of the Milwaukee was leading the Elroy a full dozen miles. The race was virtually won.

"No 721 was now snorting as though with joy. The throttle was

pulled open for the homestretch of fifteen miles, which were reeled off in twenty minutes, arriving at Janesville at 6:53 a. m., thirty-two minutes ahead of its rival. The 125 miles from Chicago were measured off in two hours and fifty-three minutes.

"The man who raced with a United States mail train and beat the Chicago and Northwestern railroad into a rich newspaper field this morning is perhaps one of the best known railroad news-sellers in Chicago. Ten or twelve years ago a 'peanut' began operating the news privilege on the Chicago, Burlington and Quincy road, subleased from the Railroad News Company. He handled the suburban trains only until he had acquired quite a cinch on the Q. trains. During the period in which he did business selling newspapers, 'battered popcorn and salted peanuts,' he earned the fast friendship of E. P. Ripley, then connected with the Burlington, but now third vice president of the Chicago, Milwaukee & St. Paul railroad. Ripley admired the news agent's hustling ways and in more than one instance the official in high standing patted the industrious peanut on the back.

"After he had entered the directory of the Milwaukee Mr. Ripley was approached by the newsman who wanted certain transportation facilities on a freight train that left Chicago Sunday mornings, and ran out through the rich Fox River Valley. The popcorn merchant boy was asked how much he could afford to pay for the privileges he was seeking. The amount was named and accepted without further dickerings.

Begins His Operations.

"The news agent then began wholesaling Sunday papers to dealers on the line of the Milwaukee road over which the train ran. He became a middleman and secured the trade of the dealers because there was no way for the publishers to supply them direct. Not only did he sell the towns on the line of the road, but he drummed up a trade with news agents who lived back ten and twelve miles from the road. These interior towns were supplied by driving to the nearest point touched by the freight train. To such dimensions did this business grow that another train was put on to run down the Fox river as far as Ottawa, after connecting with the Burlington fast mail at Aurora. On the original freight which ran from Chicago to Janesville the wholesaler one day during the strike carried out and sold 18,000 Sunday papers on each of which he netted one cent.

"The name of this dealer is Riley D. Cronk. He lives in Aurora, where he is said to own one of the finest homes in the town, as well as to hold rein over some valuable horseflesh. It was this territory that Cronk cultivated out through the great dairy district of the Prairie state that the new mail train of the Northwestern road penetrated, reaching all of the best towns save Elgin.

"The dealers, finding that by Uncle Sam's mail they could buy their papers direct and save 50 cents a hundred, deserted the old source of supply, and this is the cause of the vigorous resistance begun against the United States mail in delivering daily newspapers. As to what may yet result from Cronk's efforts to hold his old dealers, remains to be seen. In this matter, as in others in the past, the friendship of Vice President Ripley has served him well. It is said the Milwaukee is not only helping Cronk out, but is endeavoring to prevent any of the mail from being diverted to the Northwestern during the weighing which takes place next month."

JANESVILLE COAL CO.,

J. H. Gateley, Manager.

H. C. THOM IS DEAD
DESPITE ALL CAREREPUBLICAN STATE CHAIRMAN
EXPIRED SATURDAY NIGHT.

His Disease Took an Unfavorable Turn Early in the Evening, and at 9:45 O'clock the End Came—Was Well Known in Janesville and Rock County—The Funeral.

A message that saddened many Janesville people was ticked off by the telegraph Saturday night.

"Henry C. Thom is dead" was the substance of it and it also stated that the end came at 9:45 p. m. Early in the evening his condition changed for the worse and it was apparent that he could not long hold out, but he lived until nearly 10 o'clock and then expired as peacefully as the babe goes to sleep. Mr. Thom was well known to Janesville and Rock county people. He was born March 5, 1856, near Clinton. His parents were Alexander Thom and Mary White, the latter a descendant of the Stewart clan and both parents being full blooded Scotch. Alexander Thom was a wagon maker, and Henry, the only son, was born about a year after the marriage of the parents. He was educated at Clinton Junction and completed the best course

of learning obtainable at that town and then went to Oshkosh where he attended the state normal school. At the end of his course in the normal school, about 1879, he became principal of the French or Fourth ward school of Oshkosh. Later he went to the town of Turtle, near Beloit, where he was engaged in the stock-raising business until early in the eighties, he was elected and served as county superintendent of Rock county until his time and attention were entirely demanded in delivering lectures before and in conducting farmers' institutes under the late W. H. Morrison.

Appointed By Governor Hoard.

In this work he was thoroughly at home, and his success as a lecturer and conductor has never been rivaled in the whole history of farmers' institutes in the state. He attracted the attention of Governor Hoard, and when the officer of dairy and food commissioner was created, Mr. Thom was at once selected to fill the place, about June 1, 1889. He was succeeded in this office by Commissioner Harkness when the democrats came into power in 1891. Mr. Thom then became a manager of the Four Lakes Light & Power company of Madison, which position he has held since with great credit to himself, and with great satisfaction to the company of which he is a member. He had been chairman of the state central committee during the last two campaigns, and in this position his conduct has been beyond the reproach of political enemies, and his management of the duties and responsibilities have been for the best interests of his party and guided by motives of the highest ethics and consideration for others.

Teachers Adopt Resolutions.

During the teachers' convention held at Clinton, June 7, 1889, the following resolutions were adopted: "WHEREAS, there is a tide in the affairs of men which taken at the flood leads on to a fortune; and "WHEREAS, the occasion has now come for manifesting our esteem for services so bountifully bestowed by our county superintendent rendering him the noblest Roman of them all, therefore be it

Resolved, that we herewith express our gratitude to Prof. H. C. Thom for the wise counsel and faithful labor with which he has sustained his relations towards us, and further, Resolved, That we congratulate him on his appointment which he has so well merited, that we wish him well in his new duties and confide in his sterling ability to the successful pursuance of his future course."

Mr. Thom married Miss Julia Scott, a daughter of Winfield Scott, of Oshkosh, and four children, two boys and two girls, have been born to them, all of whom are still living.

Funeral To Be Tomorrow.

The funeral will take place from the Congregational church, Madison, on Tuesday afternoon at 2 o'clock. The funeral services will be conducted by the Rev. Joseph Cochran, of Christ Presbyterian church, Madison, the Rev. Dr. Updyke assisting. The pall bearers will be H. C. Adams, Frank Hoyt, Samuel Harper and Ralph Vernon, of Madison; C. R. Nevitt, Jr., of Oshkosh, and C. W. Everett, of Beloit. The state officers and members of the legislature will attend in a body, as will the judges of the supreme court and members of the state university faculty.

There is little or no talk among poli-

iticians as to Mr. Thom's successor as chairman of the Republican State Central committee. It is an office filled by the state convention and the last republican state convention elected Mr. Thom. If it is necessary to choose a chairman before the next state convention, the members of the state central committee will meet and make a temporary appointment.

TO-DAY'S TERSE TOWN TALES

The Myers opera house will have an exceptionally brilliant attraction tomorrow night, when Otis Skinner makes his first appearance here in his great impersonation of "Shylock" in "The Merchant of Venice." Mr. Skinner is highly esteemed in Janesville, both for his personal and professional worth, and has left pleasant recollections by his admirable performances in other years. The play will have a very very beautiful production. The sale of seats opens Tuesday morning.

BAD CHECKS USED
BY GEORGE STILESROCK COUNTY MAN IN TROUBLE
IN ST. LOUIS.

He Is Charged with Forging the Name of His Father, Who Lives at Evansville, to Paper Aggregating \$400 and Buying a Saloon with the Proceeds.

George Stiles of Evansville, who is well known to Janesville people is in trouble at St. Louis.

Dispatches from that city and Des Moines, Ia., where he also spent much of his time, say that the St. Louis authorities arrested him for forgery, he being wanted by J. Pressman, his bondsman in three cases. Stiles some weeks ago drew thirty or forty checks on as many business houses, in sums aggregating \$100, using the name of his father, who lives in Evansville, with which he purchased a saloon at St. Louis. On his person was a letter from a Des Moines, Ia., friend warning him to leave the country. Stiles admits that he is wanted in Des Moines, where he is accused of forging checks, and his case is now pending in a justice court. At Des Moines he was known as Robert B. Stiles.

COLORS AND COMBINATIONS.

Fuchsia Red, Sky Blue and Tones of Purple the Favorites.

Bright fuchsia red has become such a favorite that there is no likelihood of its being given up for some time, and it is prepared in silks, velvets and ribbons in sufficient quantities to meet a large demand for both dressmaking and millinery purposes. Tones of purple, violet and mauve are all expected to be much worn, and the changes will be rung upon these, the tints of lilac, crocus and pansy vying with those of petunia and cineraria in the color schemes. A peculiarly harsh, metal-

WALKING GOWN.

lic, light bluish green, seen of late, has found so many friends that it appears to have come to stay. It is a very trying tint, but its conspicuousness recommends it to those women who dress to be remarked. It should be avoided by every one having a faulty complexion, as it brings out all the yellowness and imperfections of the skin.

Sky blue remains a favorite, especially when scattered over with small designs in white broche, or in the case of surahs, shot with white, pearl gray or palest gold. The introduction of gold or silver threads into fancy fabrics part silk, part wool has always been successful and never more so than at present, when taste leans so much toward glitter. Sky blue of the palest combined with snowdrop white and relieved with an outlining of gold threads wherever the design brings the white and the blue together composes a really beautiful harmony, the softness imparted by the wool being an element in its success. With pink and other pale colors the same idea works out well. Yellow is to be very much worn in evening dresses in both light and dark shades, deepening to sumptuous orange, pomegranate and vermilion. The new designs in tussore silks are quite novel, being brocaded in black.

The gown illustrated is of iron gray cloth and white cloth, each color being decorated with applications of itself. The lower half of the skirt is white, the upper gray. The corsage and plastron are of gray cloth, the large collar and revers of white cloth. The sleeves and draped collar are of black velvet. The gray straw hat is lined with bright red velvet and trimmed with black ostrich plumes and jet.

NOISE AND NERVOUSNESS.

Effective Gown of Gray Serge Trimmed With Cream Lace.

A newspaper writer has lately declared that we are working our own deterioration by means of unmitigated noise. We have an immense number of inventions for saving time and labor, and we employ various means of gratifying the eye, but on the ear we have no mercy. If somebody would make a practical noise consumer which could be distributed in proper numbers about our cities, just as street lamps and drinking fountains are placed for the public good, our nervousness and irritability might be greatly lessened, for

GRAY SERGE GOWN.

nobody takes any pains to perform his daily avocation quietly, although the sense of hearing reacts on the nerves quite as much as the sense of sight. A large part of the fatigue of a day in the shopping district comes from the clatter of vehicles, the shouts of drivers, the crashing of doors and the intolerable din of a traffic in which the individual who makes the most noise seems to fancy he is achieving the greatest results.

There are very few people who seem to realize that nine-tenths of the noises made about a house are unnecessary. It takes no longer to put things aside gently than it does to fling them down helter skelter with a series of crashes that are like so many physical blows. The noise of heavy boots stamping about, the banging of doors, all common violences of sound, are unnecessary, unpleasant, and, considered in the latest light, unwholesome. A gentle way of handling things and moving is as important a branch of good manners as saying "Thank you" and "If you please" and should be taught children with equal strictness.

Among the many pretty gowns for the spring season none is more pleasing than the gray ones, a number of which are to be seen. The one illustrated is made of gray serge. The foot of the bell skirt is trimmed with a band of cream lace, except just in front, where it forms a straight tablier slightly draped at the waist. The round, tight bodice is trimmed with lace back and front. The short sleeves are plain, and the high, plain collar has a line in front of bright red velvet. The black straw hat is trimmed with poppies and red velvet.

A BABY

CONTRADICTS THE DOCTORS.

All Are Happy, Glad, and Well!

[SPECIAL TO OUR LADY READERS.]

The theories of physicians in regard to female complaints suffer a "Waterloo" very frequently, when sensible and thinking women take matters into their own hands.

Women are sometimes compelled to act for themselves, because of the suffering forced upon them by incompetent doctors, who are baffled by very simple complaints, because they are not the right sex to comprehend them.

Lydia E. Pinkham, when she gave to the world her Vegetable Compound, lifted women from the darkness into light. She placed within their reach a guaranty, not only of health, but of delicacy and self-respect.

The following letter is a little story where a "dear little boy" was the "Waterloo."

"I have taken three bottles of your Vegetable Compound, one package of Sanative Wash, one box of Liver Pills; and now I have a dear little babe four weeks old, and I am well. I have to thank you for this."

"I have spent \$200.00 for doctors' bills without a cure. For my cure I only spent \$5.00."

"I was once a victim of female troubles in their worst form. I have suffered untold agonies every month; had to stay in bed, and have poultices

applied, and then could not stand the pain."

"My physician told me if I became pregnant I would die. I had bladder trouble, itching, backache, catarrh of the stomach, hysteria, and heart trouble, fainting spells and leucorrhoea. Can you wonder that I sing the praises of a medicine that has cured me of all these ills?" Mrs. Geo. C. KIRCHNER, 351 Suediker Ave., Brooklyn, N.Y.

FOR SALE.

After four years of very satisfactory experience in real estate transactions, in Missouri, and having, during that time, sold \$266,800 worth of well IMPROVED FARMS in northeast Missouri, I am prepared to say to you, that no state in the whole union presents the opportunities to the farmer that Missouri does, that no other state combines so many advantages to the farmer, in no other state can you get rich, well-improved farms, in thickly settled locations with lands as good as any in Wisconsin at the prices and upon the terms which I now offer you; her rich soil, mild and equable climate, sure crops, abundance of timber, pure water, nutritious grasses, beautiful blue grass pastures, and above all, her vast crops of all kinds of delicious fruits are among her numerous advantages to the farmer. Her exhibits at the World's fair in 1893, proved that no country leads Missouri in the production of fine fruits, not even France or Spain with their vast vineyards have a y advantage over Missouri in fruit growing. I have in northeast Missouri, rich, well-improved farms, near rail roads, for sale: 1220 acres at \$35 per acre; 465 acres at \$30; 1172 at \$35; 460 acres at \$2; 540 acres at \$35; 800 acres with \$1,000 in buildings at \$35. Can take a small farm in Wisconsin or Illinois as part pay on any of these.

CAUCUS AND CONVENTION DATES

Former Will Be Held March 25 and the Latter March 26.

The republicans of the city of Janesville will meet in city convention at the common council chamber, on Tuesday, March 26, 1895, at 2 o'clock p. m., for the purpose of placing in nomination candidates for Mayor, City Clerk, School Commissioner-at-Large, Street Commissioner, Justice of the Peace, and Sealer of Weights and Measures, to be voted for at the regular city election to be held on Tuesday, April 2, 1895, and for the transaction of such other business as may come before the convention.

The several wards will be entitled to representation as follows: First ward, 7; Second ward, 5; Third ward, 7; Fourth ward, 5; Fifth ward, 3.

The ward caucuses will be called by the several ward committees for Monday evening, March 25, at the usual places.

By order of the republican city committee,
T. W. GOLDIN, Chairman,
Janesville, Wis., March 13, 1895.

THE ELECTION AND THE WATER WORKS.

The Recorder seems determined to drag into the coming city election the question of water works. In other words, the organ of the democratic party would like to make it appear that there is a division of sentiment concerning city ownership of the water works, and that the republican party is arrayed against the movement, while the democratic party is the champion of the city in favor of the enterprise. This pretext is altogether too transparent to deceive any one.

Politics has nothing whatever to do with the question.

The water company, at the instigation of a republican mayor and council, is now in the courts for investigation. When the legal questions being considered are settled, the company will be called upon to submit to the council a statement of the actual cost of the plant. This statement when furnished will be subjected to all the scrutiny and examination that the city is disposed to give it. When the question of cost is determined, the city will have the right under its franchise option to purchase the plant, and the political complexion of the council will in no way enter into the transaction.

This is a plain statement of the facts as they exist. Public sentiment is strongly in favor of city ownership. It is just as strongly in favor of protecting the rights of private ownership against a desire to wreck the company for private greed, even with a \$10,000 bonus attached to the wreckage.

To be more explicit, the statement was made in a public meeting last fall, that a party of gentlemen were ready to pay the cost of litigation and pay the city a bonus of \$10,000 for the franchise and property of the water company as soon as the city had gained possession of the property.

The Gazette expresses the sentiment of all fair minded people in saying that the city cannot afford to be a party to any such transaction.

If the city purchases the water works of the present owners it makes the investment because public sentiment favors it, and not for speculative purposes. If the city does not buy the plant the people understand very clearly that the present ownership can be controlled and regulated just as readily as any other private ownership. The common council is not organized for the purpose of speculating on private corporations, even though they may be working under special charter, with valuable franchises attached.

There is no division of sentiment concerning the water works. The only question for the voters to decide is whether the city shall be under republican or democratic rule for the next year.

On this, the only issue, the Gazette is emphatically one-sided. The paper has no use for the democratic party as an organization, because it believes that the governing principles of the party are wrong. "Tried and found wanting" is the popular verdict that is being pronounced, not only in state elections, but in village, towns and cities, in all parts of the country. The party is unsound on all the great questions that affect national and individual prosperity. The personal of the party in

Janesville, or any other city has nothing to do with the question. They may be upright citizens and good business men, as many of them are, but they are allied, mainly by inheritance, to a party that has demonstrated beyond the power of argument, its inability to govern.

In the light of recent hard experience, every republican has a right to hold up his head and say: "I believe in the principles of the republican party, and I will maintain them by my voice and ballot, at every opportunity." He not only possesses this right, but he owes it to his party, in the interests of good government to be a loyal and enthusiastic supporter.

Democracy, and not the water works, is on trial this spring. Vote the republican ticket straight, as a matter of principle. Public sentiment and any council that may be elected, will look after the water works.

H. C. THOM.

A genial, whole-souled man has gone. His life was an inspiration to all who came in close contact with it. Free from narrowness and broad and liberal in his estimate of character, yet possessing strong convictions, he ranked as one of the brightest exponents of republican principles, serving faithfully, intelligently and well, the party that honored him. With flattering prospects for the future, death found him in the midst of activity and usefulness. His name and memory is bequeathed to the state and will long endure as a bright exponent of honesty and loyalty.

Postmaster General Wilson should take a day off, and canvass the workings of his tariff bill. Germany under reciprocal relations, was one of the best foreign customers that the United States had. When the new tariff on German beet sugar went into effect in 1894, Germany commenced to retaliate. As a result the United States has lost almost the entire trade in eight months. Russia by wise treaty has stepped in and captured the trade.

"Democracy thou art a jewel."

When Congressman Bynum of Indiana, favored the sugar bounty bill that was passed during the closing hours of congress, his action was a surprise to people who had watched his work as a legislator. It now appears that he had his eye on a fat commission connected with the sugar interests on the lower Mississippi. Southern planters have no use for him however, and he will be retired to private life in his own state.

Secretary Carlisle will spend a few weeks in Kentucky, on a still hunt for the United States senatorship.

Baby Contest.

Interest in the baby contest is increasing every day and new names are being added to the list. If you want your baby entered for the prize send in the name. Fiveshares of stock in the Rock County Building Loan and Savings Association is well worth making an effort to secure. It means \$500 in money in 1904 only nine years away. The association is one of the best ever organized. Its officers are well known to Janesville people and the stock is as reliable as bank stock. Somebody's baby will receive five shares of the stock the first of June as the result of the Gazette contest.

NO GRAND JURY TO BE DRAWN THIS SPRING.

Judge Bennett So Notified Clerk Goldin—Court Is Adjourned Until April 15, and the Judge Will Hold Court at Monroe This Week—Other City News.

Rock county evil doers will have nothing to fear from the investigations of a grand jury at the April term of the circuit court, as there will be no grand jury drawn for that term. Judge Bennett issued an order this morning to that effect. The law now is that unless the judge issues this order it becomes the duty of the clerk to draw a grand jury. Judge Bennett adjourned the January term of the circuit court until April 15, and left on the morning train for Monroe to preside at the Green county circuit court. He hopes to conclude the calendar by the end of the week. Next Monday he goes to Jefferson to hold court, and on April 5 will go to Portage to try a case under charge of venue from Portage county, it being more convenient for witnesses to try the case in Portage than in Jefferson.

MARTIN CARROLL, operator at the St. Paul depot, received his appointment this morning as a railway mail clerk, the notice coming from F. P. Smith, superintendent of the mail service at Milwaukee. He will begin weighing mail on the road between Milton Junction and Rockford.

HIRED MAN MISSING AND SO IS THE CASH

LESLIE VAN GALDER WANTS HIS FARM HAND.

Perhaps It Is a Mere Coincidence That Fifty-Five Dollars Walked Away at the Same Time That Edgar Hampline Did, But Mr. Van Galder Thinks Differently.

Leslie Van Galder, of La Prairie, is looking for his newly hired man, named Edgar Hampline.

Incidentally, he is also searching for \$55 in cash and some personal property. The man and money both disappeared some time during last night.

Hampline appeared at Mr. Van Galder's home about ten days ago, and hired out as a farm hand. Everything appeared all right until this morning when the family got up and discovered that the home had been ransacked and the money was gone.

Mr. Van Galder's pocket book, containing \$55 was missing from a trunk which had been broken open and ransacked. Hampline was missing also although he was in his room when the family retired last night.

Mr. Van Galder hurried to the city this morning and informed Chief of Police Acheson, describing Hampline as a boy about seventeen or eighteen years old, about five feet, six inches high, smooth face and wearing a dark suit of clothes. So far the police have been unable to find any trace of the boy.

Saturday evening a number of drunken men undertook to gain entrance to several houses on North Main street, but were frightened away by the inmates. They had a buggy and it is said they were trying to find somebody, but being drunk, had lost their bearings.

Fence Board As An Argument. A large delegation from the town of Porter were attracted to the municipal court room today, some as witnesses and others as idle spectators. The attraction was the assault and battery case of the state against Joseph Wheeler. Augusta Benash was the complaining witness and it appears that the cattle of Benash got into the enclosure of Wheeler, who refused to let Mrs. Benash take them away. She claims that when she went to get them Wheeler struck her with a fence board, and for that offence the warrant was issued. Mr. Wheeler is about seventy years old while the complainant is in the vicinity of sixty years. The trial was finished at 4 o'clock, the jury finding the defendant not guilty.

Will O'Donnell was sentenced to five days at hard labor in the county jail, by Judge Phelps this morning, he being convicted of being drunk and disorderly. O'Donnell was on a debauch Saturday night, when he fell into the hands of Patrolman Hogan.

"What is the matter with your eye?" asked the judge as O'Donnell appeared before the bar of the court this morning.

"Mr. Hogan did it I expect," was the answer. "I guess I must have been doing something. I was drunk, and do not remember what I said or what I did."

P. LASKOWSKA HAD A RUNAWAY Although He Was Thrown From the Wagon His Injuries Are Not Severe. A horse belonging to Paul Laskowski took fright at the street cars yesterday afternoon and started to run up North Main street. He soon became unmanageable and in turning the corner of Main and North First streets, the wagon upset throwing Mr. Laskowski out. He was taken to his home, 154 North Hickory street, where it was found that he had received some bruises but aside from a general shaking up he was otherwise uninjured. The wagon was wrecked.

DEMOCRATIC CAUCUSES CALLED Primaries Held Thursday, March 21 and the Convention March 22.

The Recorder has finally announced that the democratic ward caucuses will be held in the several wards on Thursday evening, March 21, at 7:30 o'clock, for the purpose of nominating candidates for ward officers, and each ward selecting fifteen delegates to represent the ward in the city convention, which will assemble on Friday evening, March 22, to nominate a city ticket.

ST. PATRICK'S QUIETLY HONORED Services Held in the Catholic Churches, But No Parade Given.

"St. Patrick's Day" was quietly observed by the Catholic societies, by attending special services in their churches. There were no demonstrations on the streets, only the members of the Hibernian societies appearing in regalia as they moved from their respective headquarters to St. Patrick's church.

Solemn high mass was sung at St. Patrick's church, with deacon and sub-deacon. Rev. Father Reilly, of St. Francis' seminary, preached, and divisions Nos. 1 and 3, Ancient Order of Hibernians, attended in a body.

At St. Mary's church Rev. Father Roche spoke of St. Patrick and the virtues of Ireland's patron saint; and his noble work of converting Ireland to christianity was dwelt upon in a forcible and interesting manner. In connection with the musical part of the service, "St. Patrick's Day," dear to every Irish heart, was sung by the choir.

Tonight a programme will be presented at the League hall, including music, a speech by Attorney J. L. Mahoney, and reading, etc. An admission fee of twenty-five cents will be charged, and all are invited.

WOMAN FOUGHT FIRE FOR HALF AN HOUR

MRS. FRANK KNIPSHILD'S HEROIC BATTLE.

Finally She Became Tired Out and Had To Sit Down To Rest—Blaze Got Away From Her and a Passer-By Sent in an Alarm—Loss About \$400, with No Insurance.

Singlehanded, Mrs. Frank Knipshild fought a fire in the barn for half an hour this morning, but becoming exhausted she had to sit down to rest. The flames then got a good start and a passer-by seeing the blaze ran to box 26 at the corner of Hickory and Glenn street, a half mile distant and turned in an alarm.

The barn was enveloped in flames when the department arrived, but a line of 1,500 feet of hose was laid, and the fire was prevented from spreading to adjacent building on the south, several of which had very narrow escapes. The building contained a lot of hay and feed, besides a new wagon. A cow and calf were in the barn, but these were rescued by Mrs. Knipshild as soon as she discovered the fire.

The loss will be between \$300 and \$400 with no insurance.

Mr. Knipshild lives on Oak Lawn, north of St. Mary's avenue. The barn was set on fire by sparks from a passing locomotive at about 11 o'clock, and when Mrs. Knipshild first saw the blaze she set about to fight it. For half an hour she held it in check, but being compelled to carry water in pails from the house, she finally became tired out and was compelled to take a rest. Then the fire got the start of her and at 11:50 o'clock the box was pulled.

U. W. CLUB WILL BE HERE MARCH 29

College Boys Will Sing and Play in Janesville on That Date.

S. C. Hanks was down from Madison today arranging for the appearance of the glee banjo and mandolin clubs of the state university. They will play and sing at the Myers Grand on Friday evening, March 29 and as usual they will have a packed house. The clubs of the U. W. are accounted about the strongest college musical organizations on the road and they have always been greeted by enthusiastic audiences on their appearance in Janesville. Their route as originally laid out did not include Janesville, but in place of the Bower City, Rockford was scheduled for that evening. The plans were changed at the last moment and the clubs will appear on the date mentioned.

Mrs. L. J. Moran.

Mrs. Anna S. Moran, wife of Engineer Lawrence J. Moran, of the Chicago & Northwestern road, died at her home, 168 Linn street, at 4:45 o'clock this morning aged forty-seven years. Stomach trouble was the cause of her demise and beside her husband four children, John, Mamie, Ella and George Moran survive. To them and the stricken husband and father the heartfelt sympathy of many friends will be extended. The funeral arrangements have not yet been made.

BABY CONTEST OPEN BALLOTS IN DEMAND

MUCH INTEREST IS SHOWN IN
THE CONTEST.

Five Shares of Stock in the Rock County Building Loan and Savings Association Will be Given the Winner June 1—Value at Maturity Is \$500 and It Is Non Assessable.

The polls for The Gazette contest for the babies is now open and the ballot will be found at the close of this article and will run until June 1, when the contest will close. Much interest is centered in The Gazette's offer to present the baby who gets the highest number of votes with \$500 worth of stock in the Rock County Building Loan and Savings Association. It is a prize worth getting, for naturally it will be worth just half a thousand dollars. That will be a nice nest egg if kept at interest after maturity until the child becomes old enough to want to use it.

It will buy an education.
It will buy a building lot.
It will buy a piano and the lessons necessary to play upon it.

It is more than many people are able to save in a life time.

Of course all the mothers and fathers want it for their babe. How to get it is told below:
The polls opened this morning and will remain open until June 1. The baby that receives the most ballots in that time will receive a certificate calling for these five shares of stock. There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for \$500 in cash and on its maturity, which will be in nine and one-third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette, containing the above ballot.

Cut the ballot out (trimming on the dotted lines.) Write in the name of your candidate and enclose same in an envelope addressed to to Ballot Editor, Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Association, cash value, \$500 at maturity.

The contest will close June 1 at 9 p. m., and the count will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000 votes.

Each new subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more than three years of age March 1, 1895, and must live in Janesville.

THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

A Storm at Sea
Increases the discomfort of the voyager. But even when the weather is not tempestuous he is liable to sea sickness. They who traverse the "gigantic wetness" should be provided with Hostetter's Stomach Bitters, which quiets disordered stomachs with gratifying speed and certainty. To the harmful influence of a too rich, malarious or too rigorous or damp climate, as well as to the baneful effects of unwholesome diet and bad water, it is a reliable antidote. Commercial travelers by sea or land, miners, miners, western pioneers, and all who have to encounter vicissitudes of climate and temperature, secure in pronouncing it the best safeguard. It prevents rheumatism and pulmonary attacks in consequence of damp and cold and it is an efficient defense against all forms of malaria. It can be depend upon in dyspepsia, liver and kidney trouble.

If the Baby is Cutting Teeth,
Be sure and use that old and well tried remedy Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

A Happy Reunion.
A remarkable romance in real life has just been rounded off in Oregon. About twenty-nine years ago, James Hard went to work for a farmer named Arnold, in Jackson county, Oregon, and a few months later married Arnold's stepdaughter. Soon after, trouble arose between the two men. Arnold took his daughter away from Hard, and when Hard went after her the two men quarrelled, and the result was Arnold was shot dead and Hard fled the state. His wife secured a divorce and remarried. Her husband died a few years ago. Three years ago, Hard returned to Jackson county, was recognized, arrested for the murder of Arnold and sent to the penitentiary for a long term. During his trial, his former wife visited him frequently, the old love revived and she worked her hardest to secure his release. She circulated a petition for his pardon, and after two years her efforts were successful and Hard was released. Recently the two were reunited in marriage near their first home.

Heroism of Medical Men.
Doctors are among the most self-sacrificing men in the world. They often put themselves in danger while in attendance upon those afflicted with infectious or contagious diseases. One can always find a doctor who will take any case, however dangerous it may be to himself. Many a doctor risks his life in the practice of his profession. Many a one has fallen martyr to duty. Two years ago, when cholera threatened this city, scores upon scores of doctors and medical students hastened to offer their services in the hospitals. Let plague come upon any place, and there is rarely ever a lack of doctors to contend with it. If few of them were not desirous of attending the Chinese leper who recently died here, it was because his case was hopeless from the first, and because the disease might be spread by any one who came in contact with him; yet this leper was not left without medical care. The community honors the medical profession, who risk their lives for the sake of the community.

The Deadly Street-Car Strap.
A Pittsburger went to his physician not long ago complaining of a dull ache in his left arm. He had never had rheumatism, but thought his pain must come from that malady. After describing it, the doctor said: "You ride to and from your office in the cable car, don't you?" "Yes." "You seldom get a seat?" "True enough." "You have formed the habit of holding to the strap with your left hand?" "Since you mention it, I know that is so, though I had not thought of it." "That is the cause of the pain you feel. For an hour a day, more or less, your arm is held in an unnatural upraised position, and it has begun to tell upon you. A cure can only be effected by ceasing to support yourself by hanging to a strap."

Strange Case of Rapid Growth.
A remarkable case of rapid growth has recently been investigated by the French Academie des Sciences. A boy at the age of five began to grow a beard and to change his voice; he seemed a man of thirty. At six years old he was five feet six, and strong enough to lift and carry on his back bags of grain weighing two hundred pounds. At eight his hair and beard turned gray; at ten his teeth fell out and his hands and legs became palsied, and at twelve he died.

WAS LUCKY.
"I want an apple," said Tommy.
"You've just had one," said his mamma.
"I know it," said Tommy; "but it wasn't the one I wanted."

PRIDE NEVER FORSOOK HIM.

Regret of a Thief That He Had to Be Tried Without a Scarf Pin.

In an Eastern state there has been a series of barn burnings, which had destroyed thousands of dollars' worth of property. In some cases residences and stores had caught fire, and there was no end to the damage. Fine horses and vehicles, hay, grain of every sort, and the odds and ends of property which is generally stored in barns all went. The citizens of the little village were greatly incensed and left no means untried to catch the offender. Finally, during the thirteenth fire, the guilty man and his confederate were caught. Popular indignation ran so high that had the crime occurred in Kentucky, the men would have been lynched. But they were thrown into jail to await trial. The day before the trial a prominent man called upon the chief offender's wife and found her crying bitterly.

He looked about in vain for some means of comforting her, but could only pat her on the shoulder and say: "There, Mrs. S., don't take on so. Maybe they'll clear him," though down in his heart he hoped they wouldn't. But she only wailed louder.

"Oh, it isn't that. But to think Jim's to be tried to-morrow before a big crowd of people and he hasn't got any stickpin for his necktie. He is awful proud, Jim is, and when he was arrested he told me to get him a stickpin if I could, but I haven't been able to save a cent. Oh, it's awful to be so poor."

And the kind-hearted man actually took out a dollar and told her if she could find a stickpin at that price to get it for Jim to wear at court and save the family pride.

QUITE TRUE.

But Then It Was an Unfortunate Remark of His.

In an amateur theatrical society there came a crisis. There was to be a performance on Monday, and on Saturday, after what had been intended for the last rehearsal, it was plainly and painfully and awfully evident that another rehearsal was needed. The matter was talked over as only matters of such grave, of such stupendous importance can be talked over. There was an element which in the desperate circumstances came out boldly for a Sunday rehearsal, and opposed to this were those who firmly declared that rather than have a Sunday rehearsal they would prefer to see the amateur society disappear in the most profound oblivion.

The Sunday rehearsal faction had as its advocate a woman who presented her argument with vigor and eloquence, but she could not shake the rock on which stood the leaders of the opposition, two venerable maidens, who with numerous biblical quo-

tations fortified their position regarding the observance of Sunday.

"But," cried the woman who was resolved to be Napoleonic in the emergency, "did not our Lord say that the Sabbath was made for men, not men for the Sabbath?"

Then there was a pause. The maidens gazed at each other. Each felt that this was the time when the day must be saved. One of them opened her lips to speak, and the other heaved a great sigh of relief.

"That is true," said she who replied, "but that was a very unfortunate remark of His."

Spaniards Active Over All Cuba.
Tampa, Fla., March 18.—The reports of the Progresso, a Cuban steamer that arrived last night, give credence to the uprising in the eastern department and say much activity exists among the Spanish troops on the entire island. Thirteen prisoners are reported in the prisons of Havana. The Cubans had a recent engagement with Spanish troops in the outskirts of Bayamo. The affair lasted two hours and 300 Spaniards were killed and wounded.

Portland, Ore., March 18.—A general court-martial has been called at Vancouver Barracks, and it is understood one of the cases to come before it is that of Lieut. E. L. Loveridge, 14th infantry, United States army, on a charge of drunkenness. Lieut. Loveridge was recently promoted from second lieutenant in the 11th infantry to be first lieutenant in the 14th.
